## Poster Proposal

Ischer, T., Ireland, K., & Booth, D. T. (2009). Locomotion performance of green turtle hatchlings from the Heron Island Rookery, Great Barrier Reef. *Marine Biology*, 156(7), 1399–1409. <https://doi.org/10.1007/s00227-009-1180-7>

The paper is about how " **[nest]** " temperature effects the performance of baby green **[turtles]**. The paper tested their **[swimming]**, and crawling performance by measuring the rate of strokes, and mean speed. This is all in the hopes of figuring out if nest temperature could have an effect on a baby green turtle's **[survival rate]**.
